Author(s) Weller, -

Title Englische Birnrenette, pear-renet.

MLP 169

Abbreviated reference Ann. Obstk. 1(1): 39-46. 1824 [1821],

Notes Weller, Rath zu Altenburg. After discussing the characteristics of the reinette apple, known locally also as "Prinzenapfel" or "Zuckerhut", the writer advocates elimination of such nomenclatural hybrids as "Apfelbirn", "Birncalville" and "revalischer Birnapfel", proposing instead "runde Herbstbergamotte", simply "Calville", and "revalischer Zikad-Apfel" for the three varieties. respectively
